

# F2020-L

## Contents

<u>Part</u>	<u>Qty</u>
F2020 Fixture	1
Upright/Leg	2
Foot	4
Knobs	2

<u>Part</u>	<u>Qty</u>
Tee Nuts	2
Screws	2
Small Nuts	2
Black Rubber Caps	4

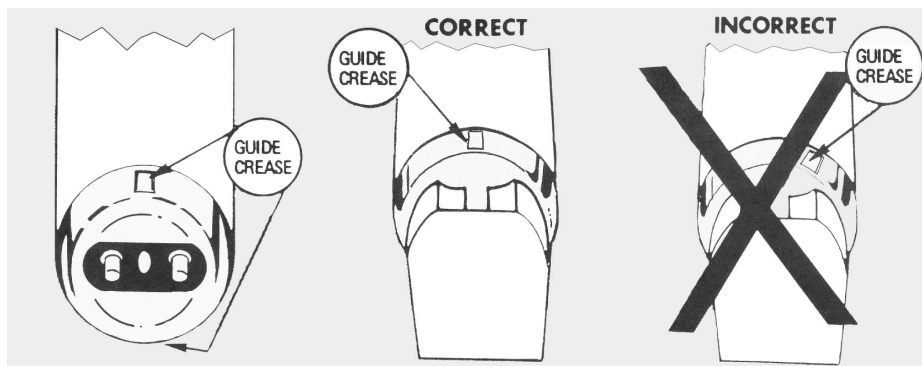

## ASSEMBLY

1. Assemble the **Uprights** and **Feet**, *as shown in the diagram on back*, using the **Screws** and **Small Nuts** provided in the kit. Tighten with screwdriver.
2. Push a **Black Rubber Cap** onto the end of each **Foot**.
3. Placing a **Knob** through the two parallel bars of the **Upright** and holding a **Tee Nut** on the inside of the **Fixture** end plate, align the stud of the **Knob** through the hole in the **Fixture** and thread it into the **Tee Nut**. Tighten **Knob** while holding the **Tee Nut** with fingers. Repeat on opposite end of **Fixture**.

## LAMP INSTALLATION

1. Install lamps by sliding pins fully into sockets, and twisting a quarter turn, in either direction, to lock.
2. With **Fixture** right side up, adjust to desired height.
